Rules in disposing household wastes and recyclables

Basic rules in disposing wastes/recyclables

- 1 Dispose garbage at the garbage station on the collection day **by 8:am.**
- 2 Follow the **garbage segregation rules** and dispose.
- 3 Use the **designated garbage bag** and dispose.
- 4 Tie the opening of the garbage bag with a **string.**
- 5 Dispose **2 bags** of burnable garbage per household, and **1 bag** of recyclables, PET bottles, landfill waste, and mercury waste (fluorescent tubes and batteries are disposed separately).
- 6 Dispose your waste at the **specified garbage station managed by the community association in your area.**
- 7 Business-related garbage from **shops and business establishments** are not allowed to be disposed at the garbage station.

Priority Goals of Waste Reduction Strategy

- Dispose miscellaneous waste as recyclables.
- Raw food waste must be "well drained", "dry".

Please use the Recycle Resource Collection Facility.

Acceptable items ◆Papers(newspapers, magazines, cardboards, miscellaneous items, etc.)
Bottles(beer bottles and 1.8 liter brown and green bottles only)

※Business-related wastes are NOT accepted. ※Oversized garbage are NOT accepted. ※Take no garbage away.
